

PROJECT CONTROLS RISK MANAGER.

Hybrid - Full-time.

London & Suffolk.

Essential/Mandatory

In-depth relevant sector experience & broader sector experience.

Role overview.

We are seeking a full-time Risk Manager to join our team in a hybrid role based in London & Suffolk, (with travel as required with flexibility for home-working).

This is an exciting opportunity to play a key role in shaping and strengthening risk management practices across a complex, large-scale project. Reporting to a Senior Risk Manager, the successful candidate will support the delivery and continuous improvement of all PMO risk management processes. This includes helping to embed and maintain effective risk practices across delivery programmes, while ensuring that controls are implemented and operated in line with the established governance structure, organisational framework, delivery model and functional standards.

The post holder will also help ensure that PMO risk activities are carried out efficiently and in accordance with agreed reporting cadences, milestones and other reporting deadlines.

The ideal candidate will have experience working in a large-scale project environment and be comfortable collaborating across multi-disciplinary teams.

Supporting the Senior Risk Manager in operating intergrated project controls (Risk) processes

- Support with tasks directed by the Senior Risk Manager, and the ability to deputise at key delivery programme meetings.
- Planning & co-ordination of risk activities such as EAC update, ERR preparation, Integrated-QRA development etc.
- Progress reporting including monthly risk dashboard updates, forecast to complete, variance identification, delivery process insights and opportunities for improvement.
- Potentially coaching and line management of Assistant Risk Managers/ Graduates/ Apprentices as required.

Knowledge & Skills: ESSENTIAL

- Good facilitation skills; able to independently facilitate workshops within programme
- Good technical skills; able to independently deliver QRAs, spanning Cost QRAs and Schedule QRAs
- Linked capability to integrate/ support breadth of project controls/ project delivery/ business support processes (e.g. Finance)
- Good engagement skills; able to independently engage teams
- Range of project and corporate professionals

DESIRABLE:

- Project management and broader project controls experience desirable

Qualifications & Experience: ESSENTIAL

- In-depth relevant sector experience/ broader sector experience

DESIRABLE:

- Possible risk management/ other technical/ capital-intensive sector-specific management qualifications
- Good client/ contractor/ consultancy/ government experience
- Good major project/ corporate experience

About us:

A London-based consultancy delivering high-impact services in project controls and digital transformation. We specialise in simplifying complexities, driving efficiency and providing data-driven actionable insights to facilitate better decision-making and project outcomes.

With extensive experience and expertise, complemented by the capabilities of our associate partners, we challenge the status quo and deliver value-driven solutions tailored to our clients' needs. Our clients come from a range of sectors, including rail, infrastructure, utilities (water, oil, gas, electric, renewables and nuclear), construction and government.

We are known for our collaborative, values-driven and future-focused approach. We care deeply about our impact and bring that same mindset to the projects we work on.

Our commitment to our clients is based on trust, expertise and our unwavering focus to ensure positive results.

Who You Are:

You bring more than just project control skills—you bring the right behaviours that align with how we show up every day:

- You really care about helping others succeed
- You proactively look for ways to add value, even when it's not explicitly asked
- You're a critical thinker who asks smart questions and seeks to understand before acting
- You're digitally literate, adaptable, and comfortable working with modern tools
- You're curious, proactive, and always looking to improve
- You're credible, authentic, and can influence others with integrity
- You're emotionally intelligent, self-aware, and respectful in how you show up
- You bring innovative thinking and don't default to the obvious
- You focus on results and optimisation, not just activity
- You're collaborative—you don't sit in silence, and you make space for others
- You're accountable and own your outcomes
- You balance resilience with compassion—kindness matters here
- You're the kind of person who likes to go above and beyond

Why Join Us?

- Be part of a values-led consultancy where you're not just a number
- Work closely with experienced consultants and leaders invested in your development
- Shape the way we grow and influence how we build our teams
- Hybrid working and flexibility
- Exposure to cutting-edge work in project controls and digital transformation
- A down-to-earth, high-performing culture that genuinely supports its people

Our values are at the heart of who, and how we work – they shape our environment and daily interactions.

Our values.

Our values create a work environment that is rich in empathy, creativity and diversity. All contributions are actively welcomed and explored.

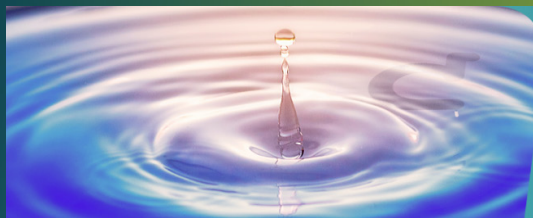

Creativity

Be creative when the basics don't work, be inventive when facing the unexpected and be agile when things don't go to plan.

Impact

Be driven to make a difference, to lead others forward and leave a lasting legacy of positive impact.

Love

Love what you do, love who you do it with and most of all love life.

Individuality

Don't sacrifice your identity to try and fit in, speak your language and share your perspective, be happy being yourself.

Courage

Have the courage to stand up for what you believe in, the courage to speak up and the courage to do the right thing.

Upload/attach your CV if you think this could be a great fit for your skills, values & career aspirations.
