

Oracle Primavera Unifier - Project & Asset Lifecycle Management.

Overview: Control Capital. Connect Data. Deliver with Confidence.

Oracle Primavera Unifier is a best-in-class project and asset management platform that connects capital planning, project controls, contract management, cost management, and facilities operations in one unified system. Built on Oracle Cloud Infrastructure (OCI), Unifier provides real-time visibility, integrated cost and schedule management, AI-driven insights, and enterprise-grade security to help organisations maximise capital investments and improve project outcomes.

KEY BUSINESS BENEFITS:

End-to-End Lifecycle Control

- Capital planning and portfolio prioritisation
- Project cost, contract, and change management
- Integrated schedule tracking
- Facilities and asset management
- Operations and maintenance workflows

AI-Driven Insights

- Business process summarisation
- Workflow status and task summaries
- Predictive analytics powered by unified data

Enterprise-Grade Platform

- 12 languages, 183 currencies, unlimited exchanges rates
- RESTful APIs included with licenses
